### **DETAILED ACTION**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Balog et al(5,669,970). The patent to Balog et al teaches the apparatus and method of a screen printing plate as claimed including a screen plate 14 having two or more print patterns disposed thereon each having a plurality of mesh holes. The aperture ratios of the two print patterns are clearly different from each other. See the attached marked-up copy of Fig. 2 and the entire Balog patent for details. With respect to claims 6-11, the method of making an electronic device with the above screen plate as claimed is certainly disclosed in the Balog patent.

Applicant's arguments filed on 6-20-2002 have been fully considered but they are not persuasive. Applicant's argument that the patent to Balog et al only teaches one print pattern on the screen plate 14 is only self-serving. The enclosed marked-up copy of Fig. 2 from the Balog patent is self-explanatory in this regard.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2854

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
